SUMMARY

Computer Engineering graduate and SOC Analyst specializing in Blue Team operations, incident response, and security monitoring. Ranked 1st across Egyptian universities in the NTI Cybersecurity Academy (SOC Analyst Track). Hands-on expertise in log correlation, threat hunting and SIEM administration using FortiSIEM, FortiAnalyzer, QRadar and Splunk. Certified in NSE 4, NSE 5 and NSE 6 with strong fundamentals in network security and OS administration.

EDUCATION

Modern Academy for Engineering & Technology 10/2021 – 07/2026
Bachelor's Degree in Electrical Engineering Cairo, Egypt
Major: Computer Engineering & Information Technology
GPA: 3.34 / 4.00 (Very Good)
Graduation Project: Smart BRT (Grade: A+)

COURSES & TRAINING

Cyber Security Blue Team - SOC Analyst 11/2025 – Present
IT-Gate Academy (340 Hours – Online)
Covering network and OS administration, Fortinet NSE 4 firewall configuration, and SOC methodologies aligned with CEH, CSA, eCIR, and eCDFP frameworks; performing hands-on log correlation, threat detection, and analysis using Splunk and IBM QRadar SIEM.

SOC Analyst (FortiAnalyzer & FortiSIEM) 08/2026 – 09/2026
National Telecommunication Institute - NTI (72 Hours - Online)
Ranked 1st place nationwide across Egyptian universities in NTI Cybersecurity Academy. Mastered SOC workflows, event handling, UEBA, and threat hunting using FortiAnalyzer and FortiSIEM. Configured automated playbooks, custom incident rules, and real-time log correlation, combined with freelancing & portfolio development skills.

Cyber Security Incident Response Analyst 11/2025 – 07/2026
Digital Egypt Pioneers Initiative - DEPI, Supported by MCIT (300 Hours – Hybrid)
Specialized scholarship as a Cyber Security Incident Response Analyst, acquiring skills in attack techniques, incident response, digital forensics, and SIEM/SOC automation, applied to a hands-on Capstone project.

Cisco Certified Network Associate - CCNA 08/2024 – 09/2024
WE - Telecom Egypt (120 Hours – Offline)
Covered IP addressing, routing and switching fundamentals, and network troubleshooting — building the networking foundation required for SOC and infrastructure security roles.

CERTIFICATES

- Fortinet NSE 4 Certified in FortiOS
- Fortinet NSE 5 Certified in Security Operations
- Fortinet NSE 6 Certified in Security Operations

PROJECTS

Automated Brute-Force Detection & Incident Analysis (Splunk SOC Lab) 09/2026

NTI - CYBERSECURITY SUPERHERO ACADEMY - 2026

- Built a 3-VM SOC lab (Kali/Ubuntu/Splunk) and configured rsyslog (UDP 514) to centralize auth logs in Splunk SIEM.
- Simulated multi-stage SSH brute-force attacks via THC-Hydra to demonstrate blocked attempts and post-compromise sudo commands.
- Authored custom SPL queries (rex parsing) to correlate login events with executed actions and built a persistent monitoring dashboard.

Incident Response Playbook & Alert Investigation 07/2026

Digital Egypt Pioneers Initiative (DEPI) — Graduation Project

- Co-developed a structured Incident Response Playbook defining detection, containment, and recovery workflows for phishing and malware threats.
- Investigated two real-world security alerts by applying the playbook to perform triage, log correlation, and incident containment.
- Authored comprehensive incident investigation reports detailing attack timelines, technical findings, and remediation action plans.

Secure Network Design for Multi-Branch Real Estate Company 12/2024

University Project — Grade: Excellent (A)

- Designed and simulated a secure network infrastructure connecting two branches (Cairo and Dubai) using Cisco Packet Tracer.
- Implemented IP addressing, VLANs, OSPF routing, and Site-to-Site VPN tunnels to ensure encrypted communication.
- Configured network security controls including Access Control Lists (ACLs) and port security to mitigate unauthorized access.

EXPERIENCE

Cybersecurity & SOC Career Coach 12/2025 – Present

Nafezly & Khamsat Freelance

Delivered 1-on-1 career consultation and introductory roadmaps for aspiring SOC Analysts and Blue Team professionals.

SKILLS

- Security Frameworks: CEH, CSA, eCIR, eCDFP
- Network Traffic Analysis: Wireshark
- OS Administration: Linux, Windows Systems
- SIEM Platforms: Splunk, IBM QRadar, FortiSIEM, FortiAnalyzer
- Network & Firewalls: CCNA, FortiOS
